Changsha International Conference and Exhibition Center, Hunan China

China is your huge potential Market for honey with bee products and beekeeping technology and equipment, and also you may DISPLAY & SELL your products directly and easily

Chinese Honey Market

Chinese Honey domestic consumption has been ranked first in the world. China is the world's largest country of beekeeping, honey production and export country, but also the power consumption of honey. Honey as China's vast territory and rich nectar source, which will have huge potential domestic consumption market with large population and the improvement of people's living standard.

According to the National Bureau of statistics data show that China's honey production increased in the past 10 years, to expand the domestic market has laid a foundation. In recent years, the domestic market share is growing. (to see the table below)
2001-2016 China's honey exports and the proportion of domestic sales (units: 10,000 tons)

</table>

From this table, in 2001, honey production was 252000 tons, and export was 107000 tons and about 145000 tons are for the domestic market of consumption. By 2016, the yield of honey
Production was 700,000 tons, and 128300 tons is for export, the volume of the domestic consumption is about 400000 tons, which is 2.75 times of the domestic sales in 2001. If each person buys 0.5 kg honey, over 1,300,000,000 Chinese people need over **650,000 tons**, so it is an Amazing Amount!

**Imported Honey in China**

Because of some fake honey products in China, some Chinese people love to buy imported honey, and those imported honey are more and more popular and are easy to be sale in China. The following data is about 2013-2017 imported honey from Chinese Customs, and you will some benefit for you.
